### Boom Brightz Controls

When looking from left to right with the light show pointed up towards the sky:

1. 3.5mm Aux input
2. Light show OFF/ON switch
3. LED Power indicator
4. Micro-USB Charging port
5. Power switch/Volume dial
6. Bluetooth disconnect button
7. Bluetooth pairing LED

### Box Contents:

1. Boom Brightz Bluetooth speaker with mounting clamp
2. Micro-USB charging cable

### Getting Started:

1. **Before first use charge Boom Brightz for at least 3 hours.**
2. To charge Boom Brightz, use the micro-USB cable that is included in the packaging to connect Boom Brightz to a USB power adapter and plug the adapter to a power outlet. Or use the micro-USB cable to connect to a computer that is powered on.
3. Once charged, to power on, turn the power switch/volume dial to the right.
4. Open the Bluetooth settings on your smartphone, computer, or tablet and connect to Boom Brightz.
5. Play music on your connected smartphone, computer, or tablet.
6. Adjust the volume by turning the power switch/volume dial to the right or left. To turn the volume up, turn the volume dial to the right. To turn the volume down, turn the dial to the left.
7. Place the switch labeled light in the on position to activate the light show. The Boom Brightz light show is best used in dark environments.
8. To turn off Boom Brightz turn the power switch/volume dial to the left until it makes a "click" sound.

### How to attach Boom Brightz to bicycle:

1. Select a position on the bicycle to attach Boom Brightz that does not interfere with safe operation of the bicycle. Choose a position that allows the lights to project downward to illuminate the ground around the bicycle.
2. Loosen and remove the screw on the clamp included in the packaging. Retain the screw.
3. Position the clamp around the desired position on the bicycle.
4. Use the rubber spacers that fit inside the clamp to ensure that the clamp fits snugly on the bicycle.
5. Re-insert the screw and tighten.
6. (Optional) To remove Boom Brightz without removing the clamp from the bicycle, pull the tab located at the base of the clamp away from the Boom Brightz and slide Boom Brightz away from the tab.
7. To reattach, slide Boom Brightz back towards the tab until it is firmly in position.

### WARNING/DISPOSAL OF UNIT:

Please do NOT attempt to change the battery yourself. Doing so may damage the unit.

- Never dispose of used batteries/electronics with ordinary solid wastes, since they contain toxic substances.
- Always dispose of used batteries/electronics in accordance with the prevailing community regulations that apply to the disposal of batteries/electronics. If there are no local regulations concerning battery/electronics disposal, please dispose of the device in a waste bin for electronic devices.
- Many electronics retailers recycle batteries and other electronic components. Check to see which ones in your area offer this service

### CAUTION

**The battery used in this device may present a risk of fire, explosion or chemical burn if mistreated**

- Never use or charge the battery if it appears to be leaking, discolored, deformed, or in any way abnormal.
- Never disassemble the unit or attempt to remove battery as that could cause leakage of alkaline solution or other electrolytic substance.
- Always confirm that the temperature is 5°C-35°C (41° - 95° Fahrenheit) before you charge the battery. Leakage or deterioration of the battery may occur if this warning is not heeded.
- Never expose the battery to any liquid
- Never expose the battery to excessive heat such as direct sunlight or fire. Never use the battery pack in an unventilated vehicle where excessive internal temperatures may be encountered.
- Always keep the battery out of the reach of infants and small children

- **DANGER: Boom Brightz is NOT a safety device and is ornamental in nature ONLY.**

- **DANGER: Do not operate the product switch while the bike is being pedaled or any part of the bicycle is in motion.**

- **Boom Brightz is not a toy and requires adult installation and adult supervision.**

- **Do not operate product at night without the nighttime equipment required by your local laws and regulations.**

- **Do not mount Boom Brightz on any moving part of the bicycle (e.g., gears, pedals, chain, brakes).**

- **This product is designed for use on bicycles only. Improper installation of product will interfere with bicycle operation .**

- **Follow all installation instructions.**

- **Product does not take the place of safety equipment, such as headlights and taillights.**

This device complies with part 15 of the FCC Rules, operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
